December 28, 2005

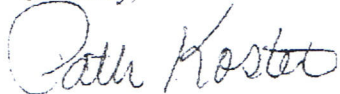

To Whom It May Concern:

Our company has been utilizing the services of TCR Solutions since 2001. TCR Solutions has played an integral role in helping our company to expand and meet the continuing demands of our clients. They have assisted us with the implementation of a new server in our Phoenix office, setting up a new office in Tucson, and connecting both offices together through a VPN Connection. In addition, they have setup a means for us to be able to work remotely and access our client data, which enables us to be more responsive to our clients and more productive in general.

Although our company is based out of Phoenix, they have always been responsive to our needs, even when the occasional emergency occurs. As our Information Technology needs continue to grow, TCR Solutions continues to deliver superior service in an efficient and reliable manner.

We can highly recommend TCR Solutions for any of your technology needs. Should you have any questions, please do not hesitate to contact me. Thank you!

Sincerely,

Patti Koster
General Manager
